Housing Management

Exclusive Features and Integrations for Fast, Easy and Flexible Attendee Housing

RegOnline's housing management tools give you unmatched flexibility for your event housing.

- Fill your room blocks faster with our exclusive Lanyon Passkey integration
- Let your attendees book their hotel rooms directly during registration
- Manage all your hotel rooming lists
- Offer multiple housing options – customized by attendee type

Lanyon Smart Events Cloud® solution brings together leading technologies for event marketing, strategic meetings management and corporate travel. RegOnline® by Lanyon – part of the Smart Events Cloud – is the easy-to-use, affordable online registration and event management solution for events of all sizes.

RegOnline is the only event management software with the tools to manage attendee housing for meetings and events of any size or type. Any planner – regardless of experience – can now provide sophisticated housing options for attendees.

Fill your contracted room blocks faster with our exclusive Lanyon Passkey integration – while still providing a simple hotel booking option for your other attendees through hotel direct. Only RegOnline gives you this much housing flexibility – so both you and your attendees can rest easy.

Save Time

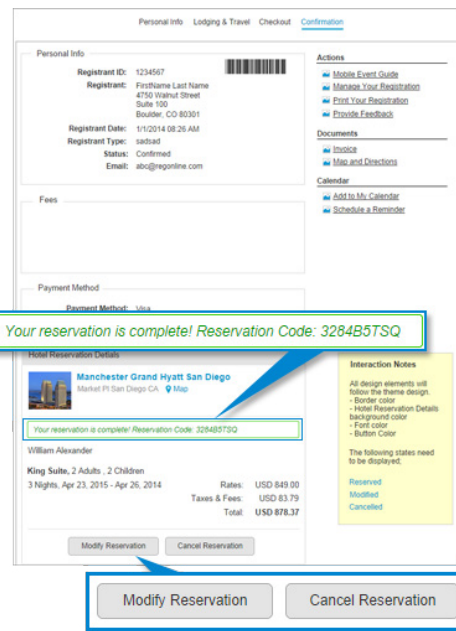

Empower your attendees to manage their own registration and hotel information. Registrants can manage their own reservations with hotel direct. Lanyon Passkey automatically reminds registrants if they haven't booked their hotel rooms so you don't have to worry about it.

Let Your Attendees Book Their Hotels Directly

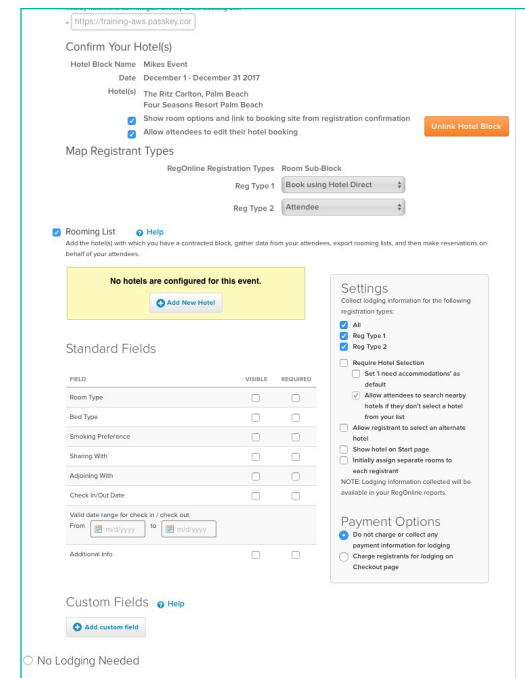

RegOnline is the only registration and event management software to offer hotel direct, a new housing feature which lets your attendees easily find and book their own hotel as part of the registration process.

Fill Hotel Room Blocks Faster

Allow your registrants to view hotel photos, rates, and room availability, as well as reserve hotel rooms right from the event registration page. Plus, attendees easily update their hotel reservations from event confirmation.

Hotel registration confirmation

Let attendees manage their own housing needs

Let your attendees book their room when they register. RegOnline is the only registration and event management software to offer hotel direct, a new housing feature which lets your attendees easily find and book their own hotel as part of the registration process — with no additional work on your end.

Seamlessly manage room blocks with Lanyon Passkey

With our exclusive integration with Lanyon Passkey, the global leader in hotel room block management, your registrants can view hotel photos, rates, and room availability, as well as reserve hotel rooms right from the registration page. Plus, attendees can easily update their hotel reservations from the event confirmation page. When you contact a room block with a Passkey-enabled hotel, all you do is copy and paste the link into your event's registration page.

Manage all your hotel rooming lists

RegOnline® by Lanyon makes it easier to manage your hotel room lists no matter which hotels you use. Simply capture your attendee travel information and housing preferences during registration then export your own rooming lists and deliver them to your contracted hotel — even if they don't use Lanyon Passkey.
