### Eliminate Data Entry in Group Bookings for Better Reporting and Upsell

The Lanyon Smart Hotel Cloud™ enables hotels to generate more profitable transient and group business. Lanyon Passkey – part of the Smart Hotel Cloud – lets hotels and CVBs streamline and automate meeting and event bookings while creating upsell revenues from group guests, who gain a simpler way to make and manage their hotel reservations.

Connect your Group reservations and business directly to your hotel's most important management and reservation systems with Lanyon Passkey's Hotel Connector. By automating real-time updates to CRS, PMS, revenue management, distribution, sales and catering systems, you'll eliminate manual data entry and lower commissions paid for 3rd party channel bookings. Upsell and manage all your Group bookings effortlessly with Lanyon Passkey.
